Report of School Board

The members of the School Board wish to thank each one of those who helped either by contributing work or money toward the alteration of the Willis School Building.

The building is practically completed, and a pipeless furnace has been installed. But in the spring we would like to be able to grade the grounds and if possible obtain more land for a playground so that the children would not have to play ball on the side of the building where the windows are.

Following are the names and the amount of work or money contributed by each:

Charles Witham, 1 day's work.
G. A. Blake, 2 days' work.
Elsworth Blake, 1 day's work.
A. W. Wight, 1 day's work.
Peter Brusio, 1 day's work.
O. A. Stiles, 1 trip to Berlin with truck.
F. U. Woodward, 1½ days' work.
Gerald Sias, 1 day's work and \$1 in money.
Mike Cleary, \$1.25 in money.
Fred Brown, 2 quarts of paint.
O. S. Holt, 2 days' work.
H. H. Holt, 2 days' work.
Ernest C. Stiles, 2¼ days' work with team.

Statement of receipts and expenditures for last complete school year ending July 1, 1921.

School Superintendent's Report

To the School Board and Citizens of Dummer:

Herewith is presented for your consideration my first annual report as Superintendent of your public schools together with a table of school statistics.

As I have been connected with your schools for only five months, this report must necessarily be limited to that time.

Since schools opened in the Fall 60 visits have been made to the various schools of the town—an average of 12 visits to a school.

At the first visit in the Fall, the new State Program of Study was placed in the schools and an attempt made to do the work there prescribed for the different grades. The work in the essential subjects—Reading, Arithmetic, Spelling, etc.—has been especially stressed. In order to measure the work in Spelling and Handwriting, the Ayres Spelling Scale and The Houston Writing Scale has been placed in the various schools, thus enabling the teacher to ascertain definitely whether or not pupils are up to standard in these subjects.

New Geographies have been introduced to replace obsolete and somewhat worn books.

In regard to the individual schools I would report as follows:

The Wight School is this year in charge of a teacher of long and successful experience, and I believe that most excellent work is being done there. The school building is somewhat old and lacks many of the modern school conveniences.

The Willis School contains a class of pupils whose ability is, I believe, somewhat above the average. The teacher here, though inexperienced, has proved to be very faithful and attentive to the work. This school should show good results. The building has been thoroughly repaired, a furnace installed and it now makes an excellent school house. It would seem that at some future time this school and the Wight should be combined and a two-

teacher school be made at the Willis. Such a combination would mean a better division of work and superior results.

The Pontook is somewhat small, but the year was started there with a teacher of good experience, and the pupils have done well. This school building is not a modern one.

The school at West Dummer, having a total registration of only five pupils, is too small to be profitably continued. Some arrangement should be made for transferring the pupils in this school to Crystal.

The Paris School has a somewhat larger registration this year than usual. This school contains some unusually brilliant pupils. The teacher here, while teaching for the first time, has taken a course at summer school and has profited much thereby. The school is doing good work. The interior of the building has been tinted a somewhat lighter color than previously obtained. With the present number of pupils, the room is somewhat crowded and the building is not designed in accordance with modern systems.

STATISTICAL TABLE FOR YEAR ENDING JULY, 1 1921

School	Teachers	Enroll- ment	Average	Visits of Supt.
Willis...	Naomi E. Ladd.....	24	20	40
	Rachel V. Murphy.....
	Hazel I. Arno.....
Wight...	Lillian C. Macdonald....	13	10	28
Pontook.	Nellie Allen.....	15	10	23
	Margaret Norton.....
Corner..	Thelma O. Pederson.....	7	4	20
	Mrs. Lewis Lovejoy.....
Paris ...	Helen B. Miles.....	14	10	17
	Ethel B. Parker.....

The above schools were all in session for a year of 36 weeks with the exception of the Corner School. This school had a year of 34 weeks and 2 days.

Respectfully submitted,

W. S. ADAMS.
